SUMMARY

+3 years experienced in IT and a **front-end developer**, interested in writing codes, skilled at developing complex solutions, creating responsive designs, possessing strong creative thinking skills, high energy and integrity. Ability to create algorithms effectively, and interact positively and communicate appropriately with team members. Quickly grasp new technologies and concepts to develop innovative and creative solutions to problems. Always eager to learn various technologies, tools and libraries. Especially interested in the **Front end/Web Development, HTML, CSS, JS, React**. Excited to learn new things and improve, lifetime student.

WORK EXPERIENCE

Bilisim School (talent14)   2022 - Present

Front End Developer

- **Front-End Development:** React, HTML5, CSS3, SASS, Bootstrap5,
- **State Management:** RTK Query, Redux, Axios,
- **Version Control and Project Management Tools:** GitLab, JIRA, Postman
- Currently serving as a Frontend Developer at Bilisim School, contributing to the development and enhancement of the user interface for our K12-level coding education platform.
- Collaborating seamlessly with cross-functional teams in an Agile environment, ensuring the timely delivery of high-quality features and improvements to our coding education platform.
- Taking a lead role in optimizing the user interface to enhance the overall user experience for K12 students, incorporating feedback from both educators and young learners.
- Championing the integration of accessibility features to cater to diverse learning needs, ensuring that our coding education platform is inclusive and user-friendly for all students.
- Adopting responsive design principles to ensure a consistent and enjoyable user experience across various devices, including desktops, tablets, and mobile phones.
- Establishing a feedback loop with our young users and educators to gather insights and suggestions, driving continuous improvement in the user interface and overall platform functionality.

DESOWA   2021 - 2022

Front End Developer

- **Front-End Development:** React, HTML5, CSS3, SASS, Bootstrap5,
- **State Management:** RTK Query, Redux, Axios,
- **Version Control and Project Management Tools:** GitHub, Postman
- I translated interface designs created in Figma into code using HTML and CSS. Throughout this process, I collaborated closely with the design team, focusing on maintaining the visual integrity of the design while ensuring technical feasibility.

- I developed the user interface using tools such as React.js and Redux.
- I gained experience in managing data flow between APIs and optimizing user interaction using Postman.

TECHNICAL SKILLS

HTML5 | CSS3 | JavaScript | React.js | SASS | Bootstrap5 | Axios | Python | SQL | Git | GitHub | Gitlab | APIs | Agile | Jira | SDLC | RESTful APIs | Scrum |.

SOFT SKILLS

Analytical Thinking | Problem-Solving Abilities | Self-Motivated | Strong Communication | Project Management | Planning | Time Management | Adaptability | Continuous Learning | Collaboration & Teamwork | Coaching Mindset | Resilience | Curiosity | Emotional Intelligence | Creativity.

PROJECTS

- **Talent14 Web Project :** I participated in a web project within the Bilişim School, providing students with course content, games, and exercises, while also offering services to teachers and institutions in the same context. Technologies used: React, RTK Query, Boostrap, Postman, CSS, Gitlab, Jira, CI/CD,

- **File Storage Project :** In this project, I provided support for users to store any document, such as photos, videos, and documents. Technologies used: React, RTK Query, Redux, Swagger, SASS, Ant design,

- **Mappedin Web Project :** In this project, I participated in a web project of a Canada-based company that provides mapping services for large indoor areas such as airports and stadiums. Technologies used: React, Styled Component, Redux,

- **Metacask :** In this project, I contributed to and supported a web project of a Switzerland-based company that develops projects related to inventory and production processes of beverage factories. Technologies used: React, MUI, CSS,

EDUCATION

Istanbul University (Computer Programming)	2023 – Present
Anadolu University (Public Administration)	2006 – 2010

CERTIFICATIONS

● Clarusway HTML & CSS Course Certificate	June 2022
● Clarusway Javascript Course Certificate	June 2022
● Clarusway React Developer Course	Aug 2022
● Clarusway Frontend Developer Course	Aug 2022

LANGUAGE COMPETENCIES

- Turkish : Native
- English : Intermediate
